24:02:01:01. Basic certificate issued. The state board of education will issue a single basic teacher's certificate. The type of certification of the holder will be indicated by endorsements on the certificate under each of the following five classifications:

24:02:01:02. Validity of certificates. 24:02:01:03. Certificates issued before January 1, 1965, are valid. Any certificate issued before January 1, 1965, shall remain in force under the provisions in effect at the date of issuance. If submitted for renewal, a basic certificate will be issued.

General Authority: SDCL 13-1-32,
13-42-3.

Law Implemented: SDCL 13-42-3,
13-42-4.

24:02:01:04. Requirements effective July 1, 1968. Effective July 1, 1968, the requirement for teaching in the elementary grades of a kindergarten through grade twelve school system will be a certificate backed by a bachelor's degree. This requirement will not be applied retroactively to a teacher who remains in the same position which he held during the school year 1967-68, provided he fulfills requirements to keep his certificate renewed. However, if such teacher should change teaching positions, he shall be required to meet the bachelor's degree requirement. A transfer within a school system is not to be interpreted as a change of position. If an independent school district operates a rural school, the teacher of the rural school will be required to meet the same certification standards as are required of teachers in common school districts. A rural school is defined as one operating in a rural area and located outside of an incorporated town or city.

24:02:01:05. Certificates not required for temporary substitute teacher. A substitute teacher is defined as a person who teaches as a temporary teacher for not more than twenty days during any one school year. Such teacher need not hold a valid certificate during the period for which he is substituting, unless required to do so by the local school board. If it becomes necessary for such a person to teach more than twenty days during any one school year, the superintendent must file a request with the state superintendent for an extension of time. If circumstances so warrant, the state superintendent will grant permission and such substitute teacher shall be deemed to be qualified for his position.

General Authority: SDCL 13-1-32,
13-42-3.

Law Implemented: SDCL 13-42-3,
13-42-4.

24:02:01:06. Age and citizenship. To be eligible for certification, an applicant must be eighteen years of age, and a citizen of the United States. Citizenship may be waived for those who are not citizens, but who have declared their intention to become such.
